

Honorable Dr. Hyun Jin Moon,

My deepest heartfelt condolence to you and all members of your family for your bereavement on the demise of your great father Rev. Moon.

I understand how you feel because I feel devastated 32 years ago when my father passed away. The scar of the loss of our fathers will never heal because a father is not only our mentor, our guiding light, our advisor, our confident and our pride. We are what our fathers taught us and we continue their legacies.

As for you, you had a great man as your father. He molded and led you to the greatest path on earth to serve mankind and humanity.

Gather your strength, garner the support of the world and continue Rev. Moon's greatest legacy of realizing the dream of One Family under God!

With great respect,

Tan Sri Datin Paduka Seri Hajah Zaleha Ismail
Chairman, Global Peace Festival Malaysia.
