Dearly appreciated Dr. HYUN JIN MOON:

The passing of your father, the Reverend Sun Myung Moon, disheartened us profoundly because as a person who loves ethics, values and the family, I found in him inspiration and joy to work with conviction for my political ideals and the desire to excel in our dear Paraguay.

In particular I must thank, as Senator and President of the Colorado Party, that our country Paraguay united us by heart and will never forget that he has chosen our lands for its spiritual values, its energy and its status as the center of the Americas.

In our memory, Rev. Moon will remain as the person who did the most for the world to love Paraguay and dreamed to bet for its future. Who with all sincerity defended us and believed in our future. Who with greater love, spoke for our people. This gesture to all of my fellow countrymen is unforgettable.

Today the world is mourning. Paraguay cries. The dear Paraguayan Chaco is mourning.

Your father was a gift of God to humanity; for his heart, his ability to reach to people and especially for making dreams come true.

Rev. Moon will always be in our hearts and will be with our creator for his happiness at all times.

With fraternal affection.

Attentively,

LILIAN SAMANIEGO
