

**INSTITUTO UNIVÉRSICO DE PESQUISA E EDUCAÇÃO-IUPE**

---

September, the 3rd, 2012

From: Roberto Andersen  
President of Instituto Univérsico de Pesquisa e Educação

To: Dr. Hyun Jin Moon,

Dear friend. You have my sincere sympathy due to the loss of True Father's physical presence. He has been the most important leader of this planet. We all know that you, his eldest son, have inherited his administrative skills and entrepreneurial. It's good for all the humanity.

We all know, as well, the mission of Reverend Moon will continue to be exercised by him in the spiritual world and by all his followers, in our physical world, led by his sons, each one in his area of competence, whether working for peace by entrepreneurship all around the world, or by religiosity, seeking the same peace.

I am fully confident in the continuity of the whole work, because I am following, although I am not effective member of the movement, the beautiful work being performed by the members with whom I keep contact, including my "Spiritual Godfather" Ivan Reboucas and of course, the world leadership in searching peace, in an entrepreneurial way, Dr. Hyun Jin Moon.

I put myself at the disposal of the movement to help what is needed, especially in my areas of research and in the areas of my institute.

God Bless you!
